## Checklist of Birds for Cape West Coast Swartland Tourism

**Red Data Status** (IUCN - 15 Oct 2012) All birds not indicated with another code are **LC** 

**LC** = Least Concern The current Red Data Book of South Africa (2000) is in the process of revision.

**NT** = Near Threatened **Endemism** is indicated for SOUTH AFRICA and not southern Africa as in most fieldguides.

**VU** = Vulnerable **RR** = Reporting rate - the number of SABAP2 atlas cards reflecting the bird in relation to the total number

**EN** = Endangered (n) of cards for the Swartland area (n=1121)

**CR** = Critically Endangered **RR** gives an indication of the probability to see the bird within the Swartland Municipality as indicated on the

map on the Swartland Tourism Website.
